Parent/Guardian Signature: _____ Date: _____

Primary phone #: _____ Emergency Phone #: _____

FOR SCHOOL ADMINISTRATION ONLY.

Date medication received: _____ Amount of medication received: _____

School Administrator Signature

Please see reverse side of this document for Medication Authorization Information

Ignite Academy Medication Authorization Form

Dear Parent/Guardian:

If your child needs to have medication(s) given during the school day, State Regulations and School Board Policy require that you provide written authorization for all medications to be given. One medication form needs to be completed for each medication. An authorization for prescription medication must also be completed and signed by a physician or other health care provider licensed in the state of Florida.

- The Medication Authorization Form on the reverse side of this document must be entirely completed and accompany any medication (either prescribed or over-the-counter) to be given to your child in school. The form must be signed by a parent/legal guardian and the prescribing physician/legal-healthcare-provider when indicated. **Staff members will not be able to administer medication to your child without this written authorization and consent.** Thank you for assisting us to provide safe medication administration for your child during the school day.
- A parent/legal guardian or an authorized adult must hand carry medications to the school administration office. At the time of delivery, the quantity of each medication will be verified by school personnel. **Do not send medications to school with your child.**
- Medications that are to be given only one time per day or medications that can be administered before or after school should not be administered at school.
- Prescribed medications must be received at school in a container with the original, unaltered prescription label attached. **Label must be written in English.** The label must display all legal information required for a pharmacist to dispense a prescription medication such as valid issue and expiration dates, the student's name, the medication name, dosage, time to be administered, and the physician/legal-healthcare-provider's name.
- Over-the-counter (OTC) and non-prescription medications must be in the original sealed (unopened) store-issued container. Please also label the container with your child's full name and birth date. OTC's, including cough drops, will only be given according to directions on the label. If a parent/guardian requests dosages or administration recommendations that do not appear on the OTC or non-prescription medication label, orders stating the reason for the administration variation must be obtained by the parent/guardian from the physician/legal-healthcare-provider.
School administration may require a parent to obtain a physician's authorization for increased and/or daily administration of an OTC medication.
- If your child is authorized to self-carry and use life saving medications as prescribed by his/her healthcare-provider, the child must demonstrate competency in self-administration/self-treatment.
Medication with current prescription label must be signed-in to school clinic.
